

UCLA

DAVID GEFFEN SCHOOL OF MEDICINE

Biomedical Physics Interdepartmental Graduate Program

FALL 2009

BMP 260A Seminar Series

Thursdays, 12PM – 1PM

Location: 13-105 CHS

Date	Title	Speaker
9/24	<i>Inherited Disorders of Human Radiosensitivity</i>	Dr. Richard Gatti Distinguished Professor Dept. Molecular & Cellular Oncology
10/1	TBA	Dr. Hsian-Rong Tseng Assistant Professor Molecular and Medical Pharmacology
10/8	<i>Molecular Imaging in Mice: How biomedical physics applies to preclinical research</i>	Dr. David Stout Adjunct Assistant Professor Molecular and Medical Pharmacology
10/15	<i>Cardiac MRI</i>	Dr. Daniel Ennis Assistant Professor Radiological Sciences
10/22	<i>Making 3D decisions with 2D Images: Monoscopic Imaging for Intra-fraction Motion Management</i>	Dr. Nzhde Agazaryan Associate Clinical Professor Molecular and Medical Pharmacology
10/29	<i>A Picture is worth a thousand words but Imagination is worth a million.</i>	Dr. Michael Phelps Jennifer Jones, Norton Simon Professor, Chair Molecular and Medical Pharmacology
11/5	TBA	TBA
11/12	<i>Cancer Stem Cells - do they matter?</i>	Dr. Erina Vlashi Postdoctoral Scholar Dept. Molecular & Cellular Oncology
11/19	TBA	Dr. Arion Hadjioannou Associate Professor Molecular and Medical Pharmacology
12/3	TBA	TBA
